

Syra Suites

The residential complex is located in Achladi area, in Syros Island with spellbinding views to the Aegean Sea, towards which the bright interior spaces are orientated. Simultaneously maintaining their privacy, the spacious and fully equipped suites offer an ideal summer retreat.

The 'Boho' styled interior design is augmented by 'urban jungle' touches. Colours are earthy and warm and along with natural materials such as stone, wood, metal, linen, bamboo and reed, embrace contemporary sensitivities and create a relaxed, carefree daily routine.

The interiors are similar but maintain variations. Patterns are mixed and many decorative elements are unconventionally placed; bamboo armchairs, reed mats and rugs, baskets or trays become lamps and the details that complete each sitting area. Macramé wall hanging and weathered elements represent the passing of time, use and the imperfection of the handmade.

The bedrooms are similarly though not identically decorated; a wooden ladder or bamboo stems become bedheads with macramé and straw decorative pieces complimenting them.

Indoor plants are added in the living areas and kitchen spaces, bringing the green brightness of the outdoors inside.
